

HEALTHCARE PROGRAM IMMUNIZATION & SCREENING REQUIREMENTS

To protect your health and the health of patients, the State of Texas requires that all students in direct contact with patients, have obtained the immunizations below. Galveston College must also abide by any additional requirements requested by the clinical facility. It is the student's responsibility to obtain all immunizations in the proper timeframes, students will not be allowed to enroll or begin clinicals unless all requirements are satisfied.

- Bacterial Meningitis: Currently CE students enrolled in courses/programs with less than 360 contact hours are exempt from this requirement.
- Hepatitis B: A series of three immunizations and documentation of a positive titer 4-6 weeks after the third immunization. (The second immunization is given 4 weeks after the first and third at least 8 weeks after the second and 16 weeks after the first. It takes a minimum of 4 months to complete the series of three immunizations).
- Alternate method (If available)-
Request the TWINRIX Hep A & B combo vaccination accelerated dosing schedule that requires 3 doses over a 30 day period (second dose 7 days after the first and third dose 21-30 days after the first) and a final booster 12 months after the first dose. Receiving the first 3 initial doses satisfies the state policy for our students. Keep in mind that to be fully protected and to remain in compliance for employment purposes, the 100 dose should be completed on schedule.
- Influenza (Flu): proof of one dose within the last year (if required by clinical facility). You must have a note from a medical doctor if you are not able to take this immunization.
- Measles, Mumps, and Rubella (MMR)
- Measles (Rubella or red measles): If you were born in or after 1957, you must have either documentation of two doses of measles or two doses of MMR vaccine (separated by at least 30 days) after 12 months of age OR a titer result adequate to indicate immunity.
- Mumps: If you were born in or after 1957 you must have either documentation of one dose of mumps or MMR vaccine after 12 months of age OR a titer result adequate to indicate immunity.
- Rubella (German Measles): Required for all students. You must either have documentation of one dose of MMR vaccine after 12 months of age OR a titer result adequate to indicate immunity.
- *Please note: A report of illness DOES NOT meet requirements for measles, mumps, or rubella. You must provide dates of immunizations or positive titer reports*
- Tetanus Toxoid, Reduced Diphtheria Toxoid and Acellular Pertussis (Tdap): One dose of Tdap replacing one decennial Td booster for all students or a single dose at an interval of two years from the last Td for all students who will have patient contact or be present in a clinical setting during their educational program.
NOTE: A dose of tetanus/diphtheria (Td) within the last ten years will be accepted for students who have no patient contact and will not be in a clinical setting during their educational program.
- Varicella (Chickenpox): You must have two immunizations, a report of a positive titer, or report a date of illness.
Please note: This is the ONLY immunization that may have a date of illness reported as documentation of satisfying the requirement.
- Tuberculosis (TB) skin test (PPD): You must have proof of a negative reading within 12 months of the end date of clinical. TB skin test are also required on an annual basis while enrolled OR proof of a liter positive for antibodies OR if you have a history of a positive PPD.
Chest x-ray: Required ONLY if there is a history of a positive PPD test reading. You must provide documentation of the positive PPD and a negative chest x-ray taken after the date of the reported positive PPD.

Immunizations are required for all students AND must be completed BEFORE a student may participate in any patient care activity. Incomplete applications, as reflected by missing items from the checklist, will not be accepted!

Students must notify Galveston College Continuing Education of any change in applicant data. Failure to do so may result in withdrawal of permission to register in the class or the inactivation of the application.

I hereby certify that the information contained in this document is true and complete to the best of my knowledge. I understand that any misrepresentation or falsification of information is caused for denial of admissions to the Health Care Program and/or expulsion from the college. I understand that faculty and staff of the Galveston College Continuing Education and Professional Development Center will read the information contained in this application.

- Documentation of immunizations, as listed on the attachment. ALL must be completed prior to enrollment.
- Current physical for some programs. (Contact CE staff for more information). Current Healthcare Providers BLS' CPR card is required prior to clinical (except The CNA program)

House Bill 1508 Statements

Continuing Education and (NHA) Allied Health Programs: (PHLEBOTOMY, EKG, and PATIENT CARE TECH)
The Galveston College Continuing Education Healthcare Programs offer certifications through the National Healthcareer Association (NHA). Students may pursue a certification upon successful completion of course material and any clinical requirements. Students must have a high school diploma or GED and be 18 at the time of licensing exam. A provisional certification is given to those who are enrolled as part of a high school pathway. This provisional certification is good for 13 months following the date of the exam. Final certification is only awarded upon proof of High school completion. Individuals who have been convicted of certain offences may be ineligible to obtain employment with local area businesses.

For additional information regarding NHA certification please refer to the Candidate handbook at: <http://www.nhanow.com/certifications/get-certified>

House Bill 1508 Statements

Continuing Education and Texas Nurse Aide Programs: (CNA)
The Galveston College Continuing Education Nurse Aide Programs offer certifications through the Texas Department of Health and Human Services. Students may pursue a certification upon successful completion of course material and any clinical requirements. Individuals who have been convicted of certain offences may be ineligible to obtain employment with local area businesses. For information regarding eligibility please visit the following links.
